Warwick Area Career and Technical Center

Marine Technology

This program's intent is to expose students to the many areas in Marine Technology. Upon completion of the program, students will be prepared to enter the workforce into entry level occupations related to the Marine industry. Post-Secondary education is available for those students who choose to extend their education experience. Marine Technology is a hands-on competency based program which centers instruction around the various areas associated with the Marine Industry.

Students are exposed to the following areas of instruction in their first year in Marine Technology. Boat Design and Construction, Fiberglass Construction and Repair, Recreational Fishing Gear Construction, Boating Safety and Handling, Marlinespike Seamanship (rope tying and splicing), Outboard, Inboard, and Inboard/Outboard Engine Mechanics, Welding and Metalworking, Marine Systems, Shop Safety and Proper Machine/Tool use, Vessel Transportation, Marina Operations and Yard Services, Wood Joinery and Finishes.
