

Industrial Arts Program

The Upper Township School rests on the Southern New Jersey Coast in the heart of a nautical environment. The ultimate goal of our program is to continue to implement boatbuilding skills to eager-to-learn students. We are constantly looking for new avenues to stimulate learning in our project-based curriculum. We at Upper Township are forever embracing any and all new learning styles to nurture a continuing interest in hands-on boatbuilding and woodworking skills. We are dreaming of the development of a small wooden boat school to fulfill the afterschool and summer needs of the young and old in our community.
